

The accessibility options at Emmanuel are:

There is a curb cut in the driveway that leads to a ramp to the front doors.

There are 2 designated, van accessible parking spaces. Additionally, on Sundays all the driveway spots are reserved for people who need accessible accommodations.

When you enter the nave there are two pews on each side that are half size to allow for a wheelchair to be next to the pew and out of the aisle.

There is an accessible restroom near the office building entry where the food center is. Below is a floor plan that will help. To access the accessible restroom from the nave, go through the narthex, take the corridor through the chapel and up the ramp into the parish hall. Go to the left of the parish hall to locate that restroom.

The restroom will accommodate a wheelchair. The toilet is at 21" AFF (after finished floor), and there are handrails, one on the left side & one behind the toilet.

An usher will alert the clergy so communion may be brought to the pew.
